

# COMPANY PROFILE

## Umzansi Infrastructure Group (Pty) Ltd

Reg No 2015/999999/07 · VAT 4999999999 · CSD MAAA0999999

**FICTIONAL DEMO PROFILE — every identifier on this page is deliberately fake**

**Civil works · Security services · Environmental advisory · Web & ICT**

Umzansi Infrastructure Group is a fictional multi-disciplinary contractor headquartered in Port Shepstone, KwaZulu-Natal, built as the demonstration bidder for the TenderAssist SDK mock sample packs.

**CIDB grading: 6CE (General Building / Civil Engineering)**

**B-BBEE status: Level 2 (certificate expiry NOT on file — deliberate gap)**

**Enterprise type: Generic (over R50m — SANAS certificate)**

**SARS TCS PIN: 9999DEMO9999**

### Bid enquiries

Naledi Dube (Director: Operations) · 039 555 0184 · bids@umzansi-demo.example

14 Umdoni Drive, Marburg Industrial, Port Shepstone, 4240, KwaZulu-Natal

Postal address: none on file (deliberate profile gap)

# Who we are — four divisions

**FICTIONAL DEMO PROFILE — every identifier on this page is deliberately fake**

## Civil Works (CIDB 6CE)

Bridges, roads and stormwater structures across KwaZulu-Natal.

Led by Sipho Mthembu, BTech Civil Engineering (NQF 7), 18 years.

Site agent: Nomvula Khoza, N.Dip Civil Engineering (NQF 6), 9 years, site agent on two completed bridge contracts.

## Security Services (PSIRA-registered)

Guarding, reaction and control-room operations; 140 employees per the division's PSIRA letter. Director Thabo Radebe holds PSIRA Grade B; armed-response and electronic-security capability is partial (a known gap the VCW sample's gate analysis surfaces).

## Environmental & Advisory

A small unit for environmental reporting and socio-economic assessment work supporting the group's public-sector bids.

## Web & ICT Unit

Web lead Lerato Khumalo, BSc Computer Science (NQF 7), 8 years; one full-stack developer, one VoIP engineer, one support technician. Three delivered public-facing websites (one for a municipal entity); hosting resold on a Cape Town ZA-resident data centre, 99.9% uptime SLA back-to-back from the host; reseller/implementer agreement on a South-African-hosted cloud call-centre and ticketing platform.

# Compliance & registrations

| <b>B-BBEE status level</b>         | Level 2 (SANAS) — certificate expiry NOT on file     |
| <b>PSIRA (security division)</b>   | Company registration valid; 1 of 3 directors Grade B |
| <b>COIDA</b>                       | Letter of good standing (fictional certificate)      |
| <b>Banking</b>                     | Average balance above R1m (fictional bank letter)    |

## **Known profile gaps (deliberate — the SDK renders them as amber blocks)**

B-BBEE certificate expiry date not captured on the business profile.

No postal address on file.

Director Thabo Radebe's tax reference number missing.

Two directors without PSIRA Grade B (security bids above guard level).

# Track record & people

**FICTIONAL DEMO PROFILE — every identifier on this page is deliberately fake**

## Selected completed projects (fictional)
