2 FATAL compliance gate(s) still open on this bid - submitting now risks disqualification. See the warning page.

Profile gaps: B-BBEE evidence expiry; Postal address

⚠ OPEN FATAL COMPLIANCE GATES

This bid is NOT submission-ready. Each item below is a Fatal gate from the deterministic compliance layer - submitting with any of them open risks outright disqualification:

- Fatal checklist item still open: Obtain the full COR 01/2026/27 bid document - only the eTenders ADVERT is on the registry record; the returnables list, functionality matrix and threshold, pricing schedule structure and any briefing rule must all be confirmed from the official pack before anything is submitted. [manual]
- Fatal checklist item still open: Municipal rates and taxes clearance for the COMPANY and EVERY DIRECTOR - the arrears threshold is BUYER-SPECIFIC (90 days at some, ONE month at others, including arrears with any other municipality) and a settlement arrangement can save you; renters use a certified lease (plus affidavit at some buyers); start collecting director proofs on day one [GATE-RATES]

Close every gate on the bid checklist (and file the required Compliance Artifacts), then regenerate this pack.

DECLARATIONS

► TO COMPLETE - TENDER-SPECIFIC

Answer every question individually - 'Failure to do so will invalidate your tender/bid'. Furnish particulars for every yes.

State-employed persons: Persal numbers and executive-authority approval

About half of packs bar companies with state-employed directors outright; where allowed, file the approval for outside remunerative work.

ALL CSD-registered companies linked to any director

► TO COMPLETE - TENDER-SPECIFIC

Newer SBD 4 versions demand disclosure of every CSD-registered company linked to any director - EVEN companies unrelated to this bid. 'Failure to disclose... will lead to disqualification.'

Anti-collusion / independent-bid declaration (post-2022 versions)

► TO COMPLETE - TENDER-SPECIFIC

The post-2022 SBD 4 absorbs the old SBD 8/9 declarations - treat that section with the same care.

MBD6.1 - Preference Points Claim Form **MANDATORY**

Guide 4.3

KILL NOTE: Points written per claimed goal, signed, exact proof attached per goal; claims must match CIPC/CSD/B-BBEE records exactly.

Confirm the points system from the TENDER-SPECIFIC clause, not the boilerplate: 80/20 up to and including R50 million (all taxes included), 90/10 above. Read the buyer's OWN specific-goals table - never assume the standard B-BBEE scale. Claims must match CIPC/CSD/B-BBEE records exactly.

Complete the OFFICIAL forms issued in the tender pack - never retype or substitute them (an explicit disqualifier at about a third of buyers). This pack mirrors each form field-for-field so you can transcribe values onto, and check them against, the official forms.

PREFERENCE SYSTEM

Applicable preference system (80/20 or 90/10)

80/20

Computed from your estimated value against the R50m threshold. 'Straddling' means your price could fall either side - build a points strategy that works under BOTH systems and ask the SCM contact in writing which applies.

CLAIM

B-BBEE status level of contributor

2

Enterprise size class (EME / QSE / Generic)

Generic (over R50m - SANAS certificate)

Determines the evidence: sworn affidavit on the DTIC template (EME/QSE, valid 12 months) or SANAS-accredited certificate.

B-BBEE evidence expiry

○ **NOT IN YOUR BUSINESS PROFILE - COMPLETE BY HAND OR UPDATE THE PROFILE AND REGENERATE**

Evidence must be valid at closing. If it is not ready at deadline and B-BBEE is not a pre-qualification gate in this pack, STILL SUBMIT - missing proof only zeroes the points.

Points claimed per specific goal (write the NUMBER against each goal)

► **TO COMPLETE - TENDER-SPECIFIC**

Write the number of points claimed against EACH goal - some buyers reject ticks, and 'non-claiming of points on this form will lead to zero even if means of verification is attached'.

Proof attached per claimed goal

► **TO COMPLETE - TENDER-SPECIFIC**

A claim without the exact proof scores zero. Ownership goals often ALSO need shareholding certificates, certified shareholder IDs, CIPC documents and a current CSD report; locality needs a municipal account/lease matching CSD/CIPC exactly.

Subcontracting declaration (25%/30% cap to lower-scoring enterprises)

► **TO COMPLETE - TENDER-SPECIFIC**

You may not subcontract more than the stated cap to an enterprise without equal-or-better points unless declared - read the pack's number.
