forms

91.8%

auto-filled (56/61 fields)

41

fields for you to complete

Complete the OFFICIAL forms issued in the tender pack - never retype or substitute them (an explicit disqualifier at about a third of buyers). This pack mirrors each form field-for-field so you can transcribe values onto, and check them against, the official forms.

6 FATAL compliance gate(s) still open on this bid - submitting now risks disqualification. See the warning page.

Profile gaps: B-BBEE evidence expiry; Postal address; Priced line items (from the linked erp Quotation where available); Quotation total (carried to the cover form); TOTAL BID PRICE (on the face of the form)

⚠ OPEN FATAL COMPLIANCE GATES

This bid is NOT submission-ready. Each item below is a Fatal gate from the deterministic compliance layer - submitting with any of them open risks outright disqualification:

- Fatal checklist item still open: Obtain valid Grade B PSIRA registration certificates (certified) for ALL directors - only 1 of 3 directors currently holds Grade B (VCW Pre-Qualifier 7; the GATE-SECTOR fixture rule did not auto-attach for this buyer). [manual]
- Fatal checklist item still open: Proof of PSSPF payment for the last 3 months - the security division holds only 1 month of PSSPF payment history and cannot cure this before closing on 2026-09-03 (VCW Pre-Qualifier 9). [manual]
- Fatal checklist item still open: Increase Public Liability Insurance cover from R10 million to the required minimum of R15 million and file the certificate (VCW Pre-Qualifier 11; GATE-INSURANCE did not auto-attach for this buyer). [manual]
- Fatal checklist item still open: Section 2 requires a CIDB contractor grading designation of 4 SQ PE OR HIGHER - current registration is 6CE (Civil Engineering class, not SQ/PE); register the SQ class or bid Section 1 only (VCW Pre-Qualifier 10; GATE-CIDB does not auto-attach under the SBD regime). [manual]
- Fatal checklist item still open: Original or certified municipal rates clearance certificate, or certified lease with the lessor's rates certificate, not older than 3 months (VCW Pre-Qualifier 4; GATE-RATES is modelled MBD-only and did not auto-attach for this SBD-regime water board). [manual]
- Functionality self-score is below the pack's threshold - functionality is an elimination gate before price and preference.

Close every gate on the bid checklist (and file the required Compliance Artifacts), then regenerate this pack.

Pack Index

Form	Title	Status	Auto-filled	To complete

Auto-filled counts profile/bid fields resolved from your stored data; 'To complete' counts the tender-specific fields marked in red inside each form.

SBD1 - Invitation to Bid (cover form) MANDATORY

Guide 4.1

KILL NOTE: Fill EVERY field. Write the TOTAL BID PRICE on the face of the form, carried over exactly from the pricing schedule. Sign, date, state signing capacity, attach proof of authority.

Fill EVERY field on the official cover form. The form's own warning is real: 'FAILURE TO PROVIDE / OR COMPLY WITH ANY OF THE ABOVE PARTICULARS MAY RENDER THE BID INVALID.'

Complete the OFFICIAL forms issued in the tender pack - never retype or substitute them (an explicit disqualifier at about a third of buyers). This pack mirrors each form field-for-field so you can transcribe values onto, and check them against, the official forms.

BIDDER IDENTITY

Name of bidder

Umzansi Infrastructure Group

Registered name (as per CIPC)

Umzansi Infrastructure Group (Pty) Ltd

Names must match CIPC, CSD and the B-BBEE evidence EXACTLY - a mismatch is treated as misrepresentation at some buyers.

Company / CC registration number

2015/999999/07

VAT registration number

4999999999

If not VAT-registered, write 'Not registered' - never leave the line blank.

CSD supplier number (MAAA)

MAAA0999999

Registration must be active AT CLOSING TIME; attach the CSD report the pack demands (several buyers reject the summary report and require the FULL report).

SARS Tax Compliance Status PIN

9999DEMO9999

Generate a CURRENT PIN on eFiling per bid - stale PINs fail verification.

PREFERENCE

SBD4 - Declaration of Interest / Bidder's Disclosure **MANDATORY**

Guide 4.2

KILL NOTE: Every question answered individually - a blank is a kill. List ALL directors with ID/tax numbers. Newer versions demand disclosure of ALL CSD-registered companies linked to any director, even unrelated ones. Post-2022 version absorbs the SBD 8/9 anti-collusion declarations.

The deadliest form in the pack: answer EVERY question individually, yes or no, plus particulars for any yes - a blank is a kill. JVs: one form per partner unless the buyer expressly allows a combined form.

Complete the OFFICIAL forms issued in the tender pack - never retype or substitute them (an explicit disqualifier at about a third of buyers). This pack mirrors each form field-for-field so you can transcribe values onto, and check them against, the official forms.

Full Name	ID Number	Position	Tax Reference No	In State Service	Persal Number
Sipho Mthembu	8001019999089	Managing Director	0999999991	No	
Naledi Dube	8506049999086	Director: Operations	0999999992	No	
Thabo Radebe	7909129999085	Director: Security Services		No	

List ALL of them with ID and tax reference numbers; state-employed persons disclosed with Persal numbers. Omission invalidates the bid.

DECLARATIONS

Question block: interests, relationships with the institution, state employment

► TO COMPLETE - TENDER-SPECIFIC

Answer every question individually - 'Failure to do so will invalidate your tender/bid'. Furnish particulars for every yes.

State-employed persons: Persal numbers and executive-authority approval

► TO COMPLETE - TENDER-SPECIFIC

About half of packs bar companies with state-employed directors outright; where allowed, file the approval for outside remunerative work.

ALL CSD-registered companies linked to any director

► TO COMPLETE - TENDER-SPECIFIC

Newer SBD 4 versions demand disclosure of every CSD-registered company linked to any director - EVEN companies unrelated to this bid. 'Failure to disclose... will lead to disqualification.'

Anti-collusion / independent-bid declaration (post-2022 versions)

► TO COMPLETE - TENDER-SPECIFIC

The post-2022 SBD 4 absorbs the old SBD 8/9 declarations - treat that section with the same care.

Intended subcontractors and value of subcontracted work

► **TO COMPLETE - TENDER-SPECIFIC**

Non-disclosure of intended subcontractors is treated as a false declaration.

SBD6.1 - Preference Points Claim Form **MANDATORY**

Guide 4.3

KILL NOTE: Write the number of points claimed against each goal (ticks rejected at some buyers); attach the exact proof per goal - a claim without proof scores zero, and fraudulent claims carry up to 10-year blacklisting.

Confirm the points system from the TENDER-SPECIFIC clause, not the boilerplate: 80/20 up to and including R50 million (all taxes included), 90/10 above. Read the buyer's OWN specific-goals table - never assume the standard B-BBEE scale.

Complete the OFFICIAL forms issued in the tender pack - never retype or substitute them (an explicit disqualifier at about a third of buyers). This pack mirrors each form field-for-field so you can transcribe values onto, and check them against, the official forms.

PREFERENCE SYSTEM

Applicable preference system (80/20 or 90/10)

90/10

Computed from your estimated value against the R50m threshold. 'Straddling' means your price could fall either side - build a points strategy that works under BOTH systems and ask the SCM contact in writing which applies.

CLAIM

B-BBEE status level of contributor

2

Enterprise size class (EME / QSE / Generic)

Generic (over R50m - SANAS certificate)

Determines the evidence: sworn affidavit on the DTIC template (EME/QSE, valid 12 months) or SANAS-accredited certificate.

B-BBEE evidence expiry

○ **NOT IN YOUR BUSINESS PROFILE - COMPLETE BY HAND OR UPDATE THE PROFILE AND REGENERATE**

Evidence must be valid at closing. If it is not ready at deadline and B-BBEE is not a pre-qualification gate in this pack, STILL SUBMIT - missing proof only zeroes the points.

Points claimed per specific goal (write the NUMBER against each goal)

► **TO COMPLETE - TENDER-SPECIFIC**

Write the number of points claimed against EACH goal - some buyers reject ticks, and 'non-claiming of points on this form will lead to zero even if means of verification is attached'.

Proof attached per claimed goal

► **TO COMPLETE - TENDER-SPECIFIC**

A claim without the exact proof scores zero. Ownership goals often ALSO need shareholding certificates, certified shareholder IDs, CIPC documents and a current CSD report; locality needs a municipal account/lease matching CSD/CIPC exactly.

Subcontracting declaration (25%/30% cap to lower-scoring enterprises)

► **TO COMPLETE - TENDER-SPECIFIC**

You may not subcontract more than the stated cap to an enterprise without equal-or-better points unless declared - read the pack's number.

SBD6.2 - Declaration of Local Production and Content WHERE PACK INCLUDES IT

Guide 4.3.1

KILL NOTE: Designated sectors only, but pass/fail where it applies: the Declaration Certificate plus Annex C (per SATS 1286) missing by the deadline can disqualify the bid. Confirm the N/A marking otherwise.

Designated sectors only (steel, textiles, furniture and other DTIC-designated categories), but PASS/FAIL where it applies: the Declaration Certificate plus Annex C (per SATS 1286) missing by the deadline can disqualify the bid. Most packs mark local content N/A - confirm the marking and move on.
